

# LEGO Stop Motion Videos Using iStopMotion

Working Together

# Steps:

- 1) Write or choose your story. Should have a beginning, middle and end. Storyboard the scenes.
  - 2) Create backdrops using legos, maybe Some drawn construction paper.
  - 3) Draw a Title Card with your movie's Title and who helped create it. Shoot this first!
  - 4) Shoot each frame using the iStopMotion App. Build and then watch your movie.
- <http://www.mykidsadventures.com/stop-motion-video/>

# Purpose of this project:

- Work together as a team
- Creative ways to tell a story or message
- Think of artistic elements you can add like a drawn backdrop - only build what the camera can see.
- Possible connections to content areas...

# Content Area Applications

## ENGLISH

- Interpret a scene or passage from a movie, novel, poem or play
- Re-enact a short fable, legend or myth

## MATH

- Visually exemplify how math can be used to solve real-world problems
- Visually exemplify mathematic principles such as the isosceles triangle, pi, or Pythagorean theorem
- Illustrate a math strategy

## SCIENCE

- Visualize a molecular structure or growth of plants or animals
- Visualize how levers, pistons or pulleys work

# Content Area Applications

## **SOCIAL STUDIES**

- Tell a story about lives, events, places, environments or eras
- Represent a certain time period in relation to a famous historical figure

## **HEALTH**

- Depict a healthy activity or lifestyle
- Address a social or self-esteem issue
- Present a health promotion topic

## **ARTS, MUSIC, THEATER**

- Provide a representation of an artwork from a particular era or place
- Provide examples of different art forms
- Tell a theatrical story
